## Consumer Notes:

Have YOU been wanting to see new Dragonball Z tapes? Now you can... the 18th and 19th volumes are available for the first time anywhere in May! According to Pioneer, some technical issue prevented them from releasing the Tenchi OVA DVD set and they're going to give it another shot this month. If you're looking for something a little different (and you enjoyed Kizuna), you might want to give Fake a try! And for the kiddies... more Pokemon!

## JEFF'S PICK(S) OF THE MONTH

Kite is really cool (done by Umetsu ... the same guy who designed the Presence segment in Robot Carnival and the Yellow Star segment in Cool Devices) and certainly worth a look. You might also want to look at Eve Burst Error ... it sold a TON in Japan, more than 300,000 units! And, don't forget about the new Dragonball Z's!
